Overall content	<p>The aim of the internship is for the student to acquire professional insights and skills in working with methodological and theoretical issues related to innovation management and innovation processes and to also acquire professional competences in relation to concrete work tasks in a private or public sector business, organisation or association. The objectives are fulfilled by the student preparing an internship project to demonstrate their ability to work independently scientifically with the organisation and management of innovation in a business and to reflect on the theory and methodology in relation to the job function that the student has had in the business/organisation. In the project report, the students must describe and document the academically relevant elements of the research questions and work tasks they have been allocated and reflect upon the practices that have been observed in the field, the student's own learning and the relationship between practice and theory within the field.</p>
Teaching and working methods	<p>An internship consists of:</p> <ul style="list-style-type: none"> A maximum of 400 hours, including both the internship and the internship project report The preparation of an internship project report, the object of which is for the student to demonstrate the ability to reflect upon their internship in the business/organisation and the qualifications they have used in the process. It must be possible to use the report to discuss the practical experience the student has gained through the internship - as opposed to working abstractly and analytically with similar research questions during their academic studies. The project report must refer to the overall academic subject area of the semester. <p>The internship must be approved by the Board of studies. Before the start of the internship, the student must apply for pre-approval of the Internship host. When processing the application, the Board of Studies must ensure that the student will gain professional competences from the project-oriented internship which, in terms of scope and level, match the competences that could be gained from the ordinary study programme. If the application is approved, the Head of Studies will assign a supervisor. The students will be offered supervision during the internship.</p>
