

# INM: Preparatory Thesis Seminar // For students who will write Master Thesis in the Spring 2026 and/or Autumn 2026

## About the course

subject

Chemical Biology / Environmental Science / Mathematical Bioscience / Molecular Health Science / Physics and Scientific Modelling

Content

### Aims of the seminar:

- Information about rules and regulations regarding the master thesis
- Inspiration and help to start up the master thesis process
- Input to heads of study for the allocation of supervisors for master thesis

### Who are required to participate:

#### Students should participate in the first session if:

You are planning to start your Master Thesis in January 2026

This is also the case if you have decided to carry out an internship simultaneously to your Master Thesis.

#### Students should participate in the second session if:

You are planning to start your Master Thesis in January 2026

This is also the case if you have decided to carry out an internship simultaneously to your Master Thesis, OR

You are planning to start your Master Thesis in August 2026 and you plan external collaboration, extensive field work or highly preparation demanded labwork or simply wish to get some inspiration.

### Program:

#### Mandatory common session 13:00-14:00 in 11.2-047 Gl. Natfagsal

- Welcome by Lotte Jelsbak, Chair of Study Board for Natural Science
- Formalities and possibilities by RUC Administration
- Experience of writing a Master Thesis by Anakin Diermayr, alumni Mathematical Modelling and Camilla Michelle Thorup Andersen, alumni Molecular Health Science

#### Purpose of the session

- Get essential information about rules and regulations
- Get inspiration, help and tips
- Gain insight on a student's master thesis experience

**Students should participate in the session if:** - You are planning to start your Master Thesis in January 2026. (This is also the case if you have decided to carry out an internship simultaneously to your Master Thesis)

**Short break – transport to outbreak room**

#### Parallel sessions – Time: 14:15 – 16:00

- 11.2-047 Gl. Natfagsal: **Chemical Biology** by Frederik Diness, Head of Study and **Molecular Health Science** by Lotte Jelsbak, Head of Study
- 12.2-079 Teorirum: **Physics and Scientific Modelling** by Nick Bailey, Heads of Studies and **Mathematical Bioscience** by Jesper Schmidt Hansen, Head of Study.
- 11.1-047 Studiesalen: **Environmental Science** by Per Meyer Jepsen, Head of Study

#### Purpose of the session

- Hear more about writing a thesis at your program

- Hear more about writing a thesis with a company
- Beginning the process of matching students and thesis supervisor
- Get to know more about your post-thesis possibilities

**Students should participate in the session if:** - You are planning to start your Master Thesis in January 2026. (This is also the case if you have decided to carry out an internship simultaneously to your Master Thesis)

- You are planning to start your Master Thesis in August 2026 and you plan external collaboration, extensive field work or highly preparation demanded labwork or simply wish to get some inspiration.
